

PUBLIC MEETING

The UPL Cornubia Fire Civil Society Action Group invites you to a public meeting

Date: Sat 4th September 2021

Time: 11am – 12:30pm

**Venue: Reddam House School
Umhlanga**

Dear Durban residents and organisations

The UPL Cornubia Fire Civil Society Action Group would like to extend an invite to all affected community members and organisations to hear and share your concerns and experiences in relation to the UPL chemical fire and subsequent chemical run-off into the Ohlanga River, the Umhlanga lagoon, and beaches north of Durban.

The meeting is intended to allow all stakeholders equal opportunity to voice concerns and discuss how to best map a way forward in terms of the environmental and health hazards faced by us all, including how we ensure this does not happen again.

A formal agenda will be prepared, with designated community representatives invited to raise specific concerns. There will also be a dedicated timeslot for general community comment and questions.

Due to COVID risks and restrictions, the event will be held outside with a maximum of 100 people. Please RSVP to Bongani (details below) by close of business on Wednesday 1st September 2021. Access may be restricted if an RSVP is not received. There will be strict adherence to COVID protocols.

Join us on the **4th September 2021 (11am – 12:30pm) at Reddam House School** and have your voices heard!
